Hosted by the Asian Society of Health Psychology (ASHP)  
Organized by the Japanese Association of Health Psychology (JAHP)  
Jointed by the 31st International Congress of Psychology (ICP 2016)

## Message from the Congress President

**Kyoko Noguchi, Ph.D.**

Dear Colleagues,

On behalf of the Organizing Committee, I am pleased to announce that the 6th Asian Congress of Health Psychology (ACHP 2016) will be held in PACIFICO Yokohama, Japan, from July 23 to 24, 2016. ACHP 2016 is a continuation in the series of the conferences among the Asian members in the field of health psychology. Its main missions are to promote the science and practice of Health Psychology and to facilitate interaction and communication about Health Psychology in Asia.

The Congress theme, "Health Research and Practice from Asia" expresses our hope that the Asian Society of Health Psychology will develop further, send out research and practice findings from Asia to diverse directions, and establish one of a hub foothold in the field of Health Psychology.

Toward our health and happiness, the ACHP 2016 will focus on both research and practice, and will reflect this to the Keynote lecture, Symposium, Roundtable and Poster session.

Fortunately, ACHP 2016 will be held followed by ICP 2016 (July24-29) at the same place, we are planning "ACHP-ICP joint programs" inviting health psychologists from EHPS and APA who have supported the development of health psychology in Asia.

Yokohama is a really attractive venue surrounded by many historic and modern sites. I look forward to this Congress in Yokohama as an opportunity to learn about exciting developments in Health Psychology, research findings as well as applied work in the area of health Psychology.

Look forward to welcoming you in Yokohama, Japan.

June 1, 2014  
Kyoko Noguchi, Ph.D.  
President of the 6th ACHP
